Angoss Customer Survey

We conducted two surveys last year, one to seek feedback from our customers on Angoss Analytics Software features and our support (Customer Feedback Survey); and the other (On-Demand Survey) to validate Angoss offering it's On-Demand solutions to the marketplace. We would like to thank all those who participated in our surveys.

Supercharge Your Sales Team with Angoss KnowledgeSEEKER® for Salesforce.com

Your Salesforce.com system contains a **wealth of information** about your customers, your prospects, and the effectiveness of every member of your sales team.

Like many sales managers and account reps, you may be overwhelmed by the volume of sales leads, calls, and activities – and you need **actionable insight** that can help you identify the quality leads, opportunities and activities that will drive revenues.

Go beyond dashboards and reports, to **unlock the actionable value in your data**...to know...

- Which Leads should be prioritized for actions based on their likelihood to convert to quality Opportunities
- Which Accounts are under-penetrated, with predicted Account Value and time to money estimates
- Which Opportunities are most likely to close, with predicted time to closing date and predicted Opportunity Value

Let us show you have advanced analytics – using the market's leading data mining and predictive analytics engine for marketing, sales and risk, can be used to deliver superior sales performance across your team. Angoss KnowledgeSEEKER® for Salesforce.com delivers proven data mining and predictive analytics technology and know-how to you and your team, with actionable insights covering Leads, Accounts, Contacts and Opportunities at your fingertips, right in Salesforce.com.
