

## Position: Technical Team Lead

Angoss Software Corporation develops and sells advanced data mining software and services to leading Fortune 500 organizations. We bring the business value benefits of data mining and advanced analytics to business users to empower them to make “Better Business Decisions. Every Day.”™ Over 300 clients, primarily in the financial services and information and communications technologies industries use Angoss to address their marketing, risk and operational analytics requirements.

Angoss currently supports both software licensing and on-demand subscription based solution delivery models. Over the past year we have expanded our on-demand solutions offerings, as well as identified new market opportunities we can service from the same configurable platform. We are looking for a strong, experienced, and energetic Technical Team Lead to join the R&D group. The role’s primary responsibilities include:

- Providing technical leadership to the team
- Day-to-day task management of the team
- Estimating, prioritization and planning, tracking and reporting of team activities
- Participating in the requirements gathering and analysis processes while working closely with internal and external stakeholders
- As appropriate, participating in the development and maintenance of the Product Requirements Document
- Owning the development and maintenance of the Technical Design Documents
- Participating in the design, development and maintenance of all software and database components including completing design reviews, code reviews, and coding as appropriate
- Participating in the development of key infrastructure components
- Participating in the performance review process for the team

## Required Skills and Qualifications:

- Bachelor's degree in a technical field, with high academic achievement
- Minimum of 8 years experience in software development
- Minimum 2 years experience in a leadership position
- Minimum of 5 years of Microsoft .Net development, including C#, ASP.Net, ADO.Net and Windows Forms
- Web development experience (DHTML, JavaScript, Ajax, Web Services)
- Microsoft SQL Server development experience
- Optionally: Data-mining or analytics experience
- Excellent analytical and problem solving skills
- Excellent written and verbal communication skills
- Excellent teamwork skills
- High energy, driven to innovate
- Demonstrated ability to meet or beat assigned targets and deadlines consistently

## **Applications**

Applicants should apply by submitting their resume and cover letter to [careers@angoss.com](mailto:careers@angoss.com). In the "Subject" field specify "Angoss Careers: Technical Team Lead".
