Angoss KnowledgeSEEKER for Salesforce CRM Now Available on Force.com AppExchange from Salesforce.com

Integrated Analytics Suite Addresses Key Sales Effectiveness Challenges

Toronto, Canada – January 7, 2009

Angoss Software Corporation (TSX-V: ANC), a leading provider of data mining and predictive analytics solutions for the financial services and information and communications technology industries, today announced that Angoss KnowledgeSEEKER for Salesforce CRM is now available on the Force.com AppExchange. The Force.com AppExchange from salesforce.com is a marketplace of business applications that customers can use to extend the benefits of cloud computing throughout the enterprise. Angoss analytics allow businesses to improve sales effectiveness by focusing on leads and opportunities with the greatest likelihood of success, while its predictive forecasting provides leaders with the certainty they require for consistently accurate sales planning.

“We’re glad to have Angoss joining the growing number of companies extending the value of the Force.com AppExchange for salesforce.com customers,” said Clarence So, Chief Marketing Officer at salesforce.com. “Angoss KnowledgeSEEKER for Salesforce CRM provides increased insight to the sales pipeline that can help customers improve sales effectiveness benefits.”

“Organizations are constantly seeking news ways to maximize sales growth while maintaining expenses,” states Eric Apps, Angoss President and CEO. “Angoss is pleased to be certified on the Force.com AppExchange and expects this to be an important channel to introduce the business benefits of data mining to mainstream business users and help solve these perennial challenges.”

About the Force.com Platform and AppExchange

Force.com is the only proven enterprise platform for building and running business applications in the cloud. The Force.com platform powers the Salesforce CRM applications, more than 800 ISV partner applications like those from CODA and Fujitsu, and more than 85,000 custom applications used by salesforce.com’s 51,800 customers such as Japan Post, Kaiser Permanente, KONE and Sprint Nextel.

Force.com is the fastest platform for building and deploying complex business applications. Unlike a stack of disparate client/server hardware and software products, Force.com unifies the development and deployment model from the database to the device, allowing developers to easily assemble applications with clicks, components and code, and then instantly deploy them on salesforce.com’s trusted global infrastructure. Customers and partners are using Force.com to build all kinds of business applications from supply chain management to compliance tracking, brand management, accounts receivable, claims processing applications and much more.

-MORE-

Applications built on the Force.com platform can be easily distributed to the entire cloud computing community through the Force.com AppExchange marketplace at <http://www.salesforce.com/appexchange/>
